CHARTER
RADIOLOGY
WHERE **COMPASSION** AND **EXPERTISE**
COME TOGETHER

PEOPLE WANT GREAT MEDICAL CARE FROM A DOCTOR WHO WOULDN'T TREAT STRANGERS ANY DIFFERENTLY THAN SHE WOULD TREAT HER OWN FAMILY. THAT'S WHAT WE DELIVER AT CHARTER RADIOLOGY.

ARVINDER "DAISY" UPPAL, M.D., radiologist and CEO, founded Charter Radiology to provide the most advanced level of radiology services in a more personal environment. Combining her passion for radiology with her commitment to taking care of all patients, Dr. Uppal has built Charter Radiology into one of the region's most advanced radiology practices.

Charter Radiology offers the most sophisticated, state-of-the-art technology including 3 Tesla MRI, PET/CT, Low-dose CT, diagnostic X-ray, ultrasound, and DEXA, most of which are not available at many area academic hospitals and local imaging centers.

With her eye on personal and compassionate patient care, Dr. Uppal has also assembled a team of highly trained radiologists and technicians to complement her own radiologic expertise. Areas of focus at Charter Radiology include neuroradiology, orthopedics, cardiology, vascular, urologic, and women's imaging.

Dr. Uppal received her medical degree from Albany Medical College and completed a radiology fellowship at The Johns Hopkins Hospital. During her medical training, she was the recipient of two prestigious research awards and has authored numerous articles and presentations on advancements in radiology.

EDUCATION

- *Fellowship* - The Johns Hopkins Hospital, Baltimore, MD - Body MR/CT/US
